#### SAFETY DATA SHEET

#### **Section 1. Identification**

Product Name: Ammonium Hydroxide – .50% - 2.50%

Synonyms: Ammonium Hydroxide Solutions, Aqua Ammonia, Aqua Ammonia Solutions, Ammonia

Solutions, Ammonia Aqueous, Ammonia Water

CAS REGISTRY NO: 1336-21-6

Supplier: WD Service Company

Corporate Emergency Telephone Number: 800-366-9326

24 Hour Emergency Telephone Number: Chemtrec: 800-424-9300

Recommended Use: Various Industrial

#### Section 2. Hazard(s) Identification

Hazard: Acute Toxicity, Corrosive, Acute Aquatic Toxicity

Classification: Skin Corrosion/Irritation (Category 3) Note: (1 - Most Severe / 4 - Least Severe)

Serious Eye Damage / Eye Irritation (Category 2B)

Specific Target Organ Toxicity – Single Exposure (Category 3)

Acute Aquatic Toxicity (Category 3)

Pictogram:

Signal word: WARNING

Hazard statements: Causes mild skin irritation.

Causes eye irritation.

May cause respiratory irritation.

Harmful to aquatic life.

Precautionary statements: Wash exposed skin thoroughly after handling.

Do not eat, drink or smoke when using this product. Use personal protective equipment as required.

IF SWALLOWED: Rinse mouth. DO NOT induce vomiting.

Call a POISON CENTER or doctor/physician.

IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower. IF IN EYES: Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do.

Continue rinsing. Seek immediate medical attention.

IF exposed or you feel unwell; Call a POISON CENTER or doctor/physician.

If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing.

In case of fire: Use dry chemical, carbon dioxide, foam, or water spray for extinction.

Store upright in a cool, dry place.

Dispose of contents/container in accordance with all applicable federal, state, and local regulations.

Protect from sunlight. Do not expose to temperatures exceeding  $50^{\circ}$  C/122°F.

#### **Section 3. Composition / Information on Ingredients**

**CHEMICAL NAME:** Ammonium Hydroxide (Ammonium Hydroxide Solutions .50% - 2.50%)

CAS REGISTRY NO: 1336-21-6 Ammonium Hydroxide .50% - 2.50%

7732-18-5 Water 97.5% - 99.50%

SYNONYMS: Ammonium Hydroxide Solutions, Aqua Ammonia, Aqua Ammonia Solutions, Ammonia Solutions, Ammonia Aqueous, Ammonia

Water.

CHEMICAL FAMILY: Inorganic nitrogen compounds.

COMPOSITION: Solutions: Anhydrous Ammonia (.50% - 2.50%); Water (97.5% to 99.5%); Density: 10° Baume to 11.5° Baume.

Ammonia, Anhydrous: CAS # 7664-41-7; Water: CAS# 7732-18-5

#### **Section 4. First Aid Measures**

IF INHALED: Mild inhalation of ammonia vapors may cause irritation of the nose and throat. Coughing and sneezing may be present. Exposure to more excessive ammonia vapors may cause respiratory irritation, olfactory fatigue, labored breathing, and possible pulmonary edema. For more severe exposure, seek medical attention.

IF ON SKIN (or hair): Remove contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. If irritation develops, seek medical attention. Wash clothing before reuse.

IF IN EYES: Immediately rinse with plenty of cool water. Eyelids should be held apart and away from eyeball for thorough rinsing. Remove contact lenses if present. Avoid rubbing the affected area. Speed is essential to minimize injury. Seek immediate medical attention.

IF SWALLOWED: Do NOT induce vomiting. Rinse mouth thoroughly with water. If able, have person sip a glassful of water. Follow with a citrus juice if available. Call a physician or poison control center.

#### **Section 5. Fire Fighting Measures**

Flammability: Liquid state not flammable Flash Point: No information available

Flash Point Method: Not applicable

**Burning Rate:** No information available **Autoignition Temp:** No information available

In the event of a fire, wear full protective clothing and MSHA/NIOSH self-contained breathing apparatus with a full face piece operated in the pressure-demand or other positive pressure mode.

Ammonia gas will be liberated at all temperatures, which can be explosive under confined space conditions. Contact between this product and concentrated mineral acids will cause instant boiling and possible explosion.

Using extinguishing measures that are appropriate to local circumstances and the surrounding environment; Water spray may be used to keep fire exposed containers cool. Water spray or fog should be used to remove generated ammonia gas from the atmosphere. Fire extinguishing agents include dry chemical, carbon dioxide, foam, or water spray.

#### Section 6. Accidental Release Measures

Use personal protective equipment as required/recommended. Evacuate public to a safe area. Stay upwind of spill. Avoid contact with skin, eyes, and clothing.

Prevent spills from entering sewers or waterways. Contain run-off using diking composed of a suitable material. Soak up liquid on inert absorbant and transfer to an approved container. Clean contaminated surface thoroughly.

## Section 7. Handling and Storage

**Handling Precautions:** Use personal protective equipment as required/recommended. Use only with adequate ventilation.

Avoid contact with skin, eyes and clothing. Use suitable respiratory equipment in case of inadequate ventilation.

Handle empty containers as if they were full due to presence of residual ammonia vapors.

Do not mix with other household chemicals.

Storage Requirements: Store using properly labeled containers in a cool, dry, well ventilated area. Keep out of reach of children. Separate

From incompatible material and excessive heat.

Publication Date: July 21, 2023 Ammonium Hydroxide Page 2 of 4

#### Section 8. Exposure Controls / Personal Protection

**Engineering Controls:** Use adequate ventilation, especially in confined spaces. Provide local exhaust ventilation system to meet established

exposure limits where ammonia vapors are likely to approach or exceed exposure limits.

**Personal Protective Equip:** Chemical splash goggles; face shield; neoprene gloves; NIOSH approved respirator; apron.

#### Section 9. Physical and Chemical Properties

**APPEARANCE:** Clear; colorless

Physical State:LiquidOdor:Pungent, ammoniaSpec Grav./Density:0.994-0.996Solubility:Completely soluble

 Boiling Point:
 212°F (approx.)
 Freezing/Melting Pt.
 32°

 pH:
 10.50-12.00
 UFL/LFL:
 25%/16%

## Section 10. Stability and Reactivity

**Stability:** The product is stable and non-reactive under normal conditions of use, pressure, storage and transport.

**Conditions to Avoid:** Contact with incompatible materials.

Materials to Avoid: Chlorine, hypochlorite, acids, alkalies, oxidizing materials, copper, aluminum, zinc, galvanized metals.

**Hazardous Decomposition:** Ammonia gas and oxides of nitrogen.

Hazardous Polymerization: Will not occur.

## Section 11. Toxicological Information

**Acute Toxicity:** 

Oral (LD50): No information available.

Inhalation (LC50): No information available.

Skin Irritation: Repeated, prolonged or occluded contact may cause various severities of skin irritation.

Eye Irritation: May cause eye irritation with severe pain, closure of eyelids, and possible corneal injury.

Sensitation: Ammonia vapors may cause upper respiratory irritation resulting in coughing and sneezing, olfactory fatigue, labored

breathing, and pulmonary edema.

**Chronic Toxicity:** None known.

## **Section 12. Ecological Information**

Considered biodegradable.

BOD/COD Value is not established.

Ecotoxicity: This product is acutely toxic to aquatic life.

## Section 13. Disposal Considerations

Disposal should be in accordance with applicable regional, national, and local laws and regulations.

Small amounts of unused product may be flushed safely to sanitary sewer with plenty of water. Contact the local water board before flushing large amounts.

If solidified, large amounts may be disposed of in a sanitary landfill.

Contact state or local authorities for additional restrictions.

## **Section 14. Transport Information**

DOT: Not regulated. Classified as non-hazardous.

Publication Date: July 21, 2023 Ammonium Hydroxide Page 3 of 4

## **Section 15. Regulatory Information**

\*Ammonium hydroxide (1336216 0.50%-2.50%) CERCLA, CSWHS, MASS, NJEHS, PA, TSCA

\*Water (773218 97.50%-99.50%) TSCA

#### REGULATORY KEY DESCRIPTIONS

\_\_\_\_\_\_

TSCA = Toxic Substances Control Act

MASS = MA Massachusetts Hazardous Substances List
NJHS = NJ Right-to-Know Hazardous Substances
NRC = Nationally Recognized Carcinogens
OSHAWAC = OSHA Workplace Air Contaminants

PA = PA Right-to-Know List of Hazardous Substances

SARA313 = SARA 313 Title III Toxic Chemicals

TXAIR = TX Air Contaminants with Health Effects Screening Level

HAP = Hazardous Air Pollutants

CERCLA = Superfund clean up substance

CSWHS = Clean Water Act Hazardous Substances NJEHS = NJ Extraordinarily Hazardous Substances

## **Section 16. Other Information**
